

# LEARN TOGETHER

The technique is to become friends with new Classmates. Together each other can be motivated and make learning fun.

What I already know

What I want to find out

What I Learned

When we try to learn alone

When a teacher explains it to us

When friends explain to us

Make a list of everything that seems to be a unique quality of some of the team members. Share with each other.

What is your hometown?

Your favorite memories from school Share with the whole class:

What does your team have in common?

And what makes each of you unique?

What are your hobbies?

Make a list of everything that you seem to have in common with each other.
